GOALS

OUR SERVICE

DESIGN

We provide design and development support by understanding your requirements.

PRODUCT DEVELOPMENT

Our development professionals work together to develop our products. Until a sample is approved, we review and revise the prototype.

MANUFACTURING

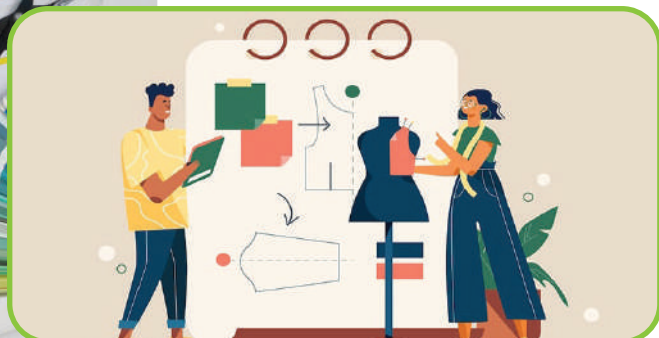

We have enlisted specialized garment factories to produce garments. Our streamlined supply chain is organized & managed at every stage by us.

QUALITY ASSURANCE

Our Quality Inspection Team will assure total quality management by providing close monitoring, random inspection along with on demand lab test.

ON-TIME DELIVERY

Our team will always facilitate & maintain on time delivery of your products with the desired packaging & shipping mode.

Benefits of working with *JAZBA*

Adaptable business models that operate on short lead times, low margins, and flexible volumes.

Focus on sustainable product offerings.

We have production and sourcing presence in several low-cost and duty-free countries around the world.

Product pricing and service fees are highly competitive.

Quality Control & Assurance

Jazba Sourcing puts a lot of emphasis on quality products and quality management. Therefore, the planned and systematic activities are implemented in a quality system so that quality requirements for the garments are fulfilled. Our Quality Assurance also includes management of the quality of raw materials, fabric & color composition, products & components, services related to production & management, production & inspection processes.

Our experience quality assurance teams manage all phases of product production using well planned and designed quality systems; who not only conduct inspections but also follow three-tier inspection system from the time the orders are placed to the time the product is ex-factory. This three-tier system includes Initial, Mid-line and Final Inspections; as per the agreed upon AQL level. We also undertake third party quality inspections if required by the client as per the agreed.

CSR & SUSTAINABILITY

Jazba Sourcing's manufacturing facilities are designed according to global benchmarks. Our facilities are audited and certified to meet the strictest social and environmental requirements. It is our responsibility to care. Our objective is to find the safest/most compliant and best suppliers we can. Our customers must know that safety and quality must have a slightly higher price.

We strictly maintain the essential core areas that social compliance should include are policies on child labor, health and safety, forced labor, compensation, discrimination, working hours, discipline, management systems, and the right to free association and collective bargaining. In addition to these core areas, government regulations and local culture also contribute to social compliance in the industries.
